

**Job Number: F-11120-4**  
**Title: Sr. Web Developer/Team Lead**  
**Location: Cleveland, OH**  
**Length: Full Time**  
**Start Date: ASAP**  
**Salary range: \$60,000-100,000.00**

Our client is expanding their Web and Mobile Development team and is looking for a highly motivated, experienced web developer with a history of leading successful teams through challenging projects. They are looking for a teammate who is aspiring to expand their current role into management and leadership.

### **Responsibilities**

- Build engaging websites and applications for our family of brands
- Provide direction, motivation and mentorship to a small-to-medium sized group of developers
- Work closely with and incorporate feedback from product management, business analysts, project management, interaction designers, and other teams
- Rapidly fix bugs, diagnose and solve problems
- Conduct design and code reviews
- Pro-actively look for ways to make the company better

### **Requirements**

- Experience building and maintaining highly scalable, customer-facing websites
- Excellent programming skills in Python/Java (or comparable web technology), JavaScript
- Understanding of web technologies (HTML/HTML5/CSS/Ajax/HTTP, Apache) and familiarity with Unix/Linux
- Comfortable with agile techniques (user stories, TDD, pair programming, iterative development)
- Exceptional communication and documentation skills

### **Desired**

- Experience building mobile optimized websites
- Experience building mobile applications for iOS and Android
